

Lagunuez

Direct-sourced pecan nuts from the Comarca Lagunera, Mexico

San Pedro de las Colonias, Coahuila, Mexico · lagunuez.com · lagunanuez@gmail.com

Why Lagunuez

● Field-verified quality

Every lot is confirmed by Lagunuez's own field sampler with a physical sample — variety, grade (A/B/C), tonnage, yield % and moisture % — before it's ever listed. Not self-reported by the grower.

● Transparent pricing

Buyers see the same price breakdown the grower sees: market value, exchange rate, and what gets deducted. No hidden margin on either end.

● Single point of contact and payment

Lagunuez buys directly from each grower, so an order can combine lots from several of them while you deal with and pay a single supplier.

● Scalable sourcing

Lagunuez pools the harvest of multiple growers across the Comarca Lagunera rather than depending on a single orchard, so available volume can grow or adjust with the season — we confirm real availability per order.

Varieties available

Western	Wichita	Criolla (Native)
---------	---------	---------------------

How it works

1

Request access or a sample

Verified buyers request full catalog access, or simply email us to request a sample or ask a question first.

2

Browse certified lots

Full specs and photos per lot — variety, grade, tonnage, yield, moisture, region.

3

Build your own order

Combine lots across varieties and grades to match exactly the volume you need.

4

We coordinate delivery

Lagunuez handles payment and logistics directly with you as a single supplier.
